OUR CHALLENGE

THE CHALLENGE IS CAPACITY.

Our mission has never been stronger–but our campus has reached its limits.
What began as a vision to provide Christ-centered education has grown into one of Central Florida's fastest-growing Christian schools.

Today, our greatest obstacle is no longer demand–it's capacity.
Families continue to seek an FCCS education, yet our current facilities can no longer support the growth needed to meet that demand.

CURRENT CAPACITY
680 Students
Our campus is operating at or near capacity, limiting our ability to welcome additional students, expand academic programs, and enhance opportunities for every child.

ENROLLMENT DEMAND
Demand Continues to Grow
Interest in Family Christian Center School continues to increase each year as more families seek a Christ-centered educational experience for their children.

Existing Space
Every Space Is Maximized
Classrooms and shared learning spaces are fully utilized, leaving little room for additional students, innovative programs, or future expansion.

Current Facilities
Built for Yesterday's Needs
Our facilities have faithfully served thousands of students, but they were not designed to support the enrollment, technology, and educational opportunities needed for the next generation.

THE MISSION IS WORKING. THE CHALLENGE IS CAPACITY.
THE OPPORTUNITY IS TO EXPAND OUR IMPACT.

OUR VISION
